

Profile

Dedicated Computer Science student with strong critical thinking and organizational abilities that are proven through various academic and volunteering projects.

I am eager to learn new technologies and ready to utilize my skills and passion for coding to further the mission of a company.

Education

Bachelor's degree in Computer Science ~ 2nd Year (2021-2024)

"Babeş-Bolyai" University, Cluj-Napoca

Highschool specialized in Mathematics and Computer Science (2017-2021)

"Moise Nicoară" National College, Arad

Personal projects

- **HI6 - Social Media** | JavaFX | PostgreSQL

A social media application with database persistency and multiple features such as register, login, friend requests, messages etc.

<https://github.com/denisangel2k2/Socializing-Network>

- **Image Editor** | JavaFX

An image editing application with drawing, resizing and background removing features

<https://github.com/denisangel2k2/Image-Editor>
